Spark! has grown a lot in our two year journey, topping 1 million views and producing more than 150 videos. Our team has traveled to clinics, universities and more covering important topics in your community, and thanks to our sponsors, we have been able to expand that coverage in 2018.

Our team covered the Spayathon in Puerto Rico, which is a Herculean effort by the Humane Society of the United States and many supporting companies from our industry to bring high quality, high volume spay and neuter services to the island.

We featured important personal topics like compassion fatigue and student debt, and the struggle large animal veterinarians face in Arizona. We can do all of this and more thanks to the support of our community and our partners, and we look forward to bringing you even more in 2019.
