- August 26 – last date for congress registration
- September 11 – last date to receive any postal or electronic votes

Why is our assembly meeting called “One Assembly”? Because it is the only annual event that we come from all parts of the world representing our 174,000 members and have a chance to create a common vision together. The Power of One can only be created in the presence of our committed

representatives. We are planning to move mountains and need each one of us to make a difference. If you are not planning to attend, ask yourselves – then who will represent your members, your community, your country, your region?

So if you are already coming – great! If you have not made plans to meet on September 26 – why not? We miss you!

Kind regards.
